DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 17, line 1, "claim 16" has been replaced by --claim 15--.

Allowable Subject Matter

Claims 1-3, 5-15 and 17-18 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-3, 5-14 and 17 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit comprising, among other limitations and unobvious limitations of "a control circuit that independently controls the first active device and the second active device, and which control said phase shifter in response to said levels of forward signal and reflected signal to substantially maintain linearity of said amplifier circuit with load variations" or "a control circuit which independently and selectively controls switching said phase shifter, said at least first active device, and said at least second active device as a function of said levels of forward signal and reflected signal to substantially maintain linearity of said amplifier circuit with load variations" or "a control circuit that control said phase shifter" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Claim 15 is allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit comprising, among other limitations and unobvious limitations of “modifying a first gain of a first active device and a driver stage and a second gain of a second active device of an output stage of said amplifier circuit in response to said levels” structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Claim 18 is allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit comprising, among other limitations and unobvious limitations of “a capacitor coupled between the phase shifter and the output stage” structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hieu P. Nguyen whose telephone number is 571-272-8577. The examiner can normally be reached on M-F: 8 A.M - 5 P.M.
